## How it works

The first time you contact the cashless parking system, send a text message from your mobile phone to **60300** with the word **PARK** and your vehicle registration number. The automated payment system will call you back asking for your credit or debit card details, your choice of car park and the length of stay required.

After the first time there's no need to text, just call **0845 505 1155** and all you have to do is choose the car park and length of stay required.

Where it works
